

FAQs—Want to know?

What is Electrostatic Disinfection?

Electrically charged solution bonds with **every inch** of surface area, disinfecting hard to reach places. Nothing is left behind.

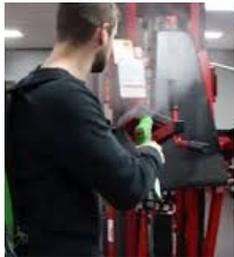

How safe is this "New Technology"?

Traditional cleaners leave harsh particles behind. Rod-O-Matic uses fully organic materials certified to disinfect larger areas and kill **99.9%** of germs and bacteria.

How much time will it take?

Reach up to **3X more surfaces** in the same amount of time it would take with rags, wipes, or other traditional cleaning methods.

SAFE AND SANITIZED?

- Protect Yourself, Staff and Your Business
- Protect your Internal & External Customers
- Latest Technology in Virus Fighting
- Environmentally Friendly Products

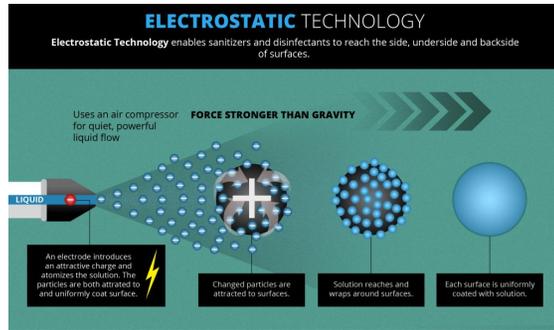

Get in Control with Our Electrostatic Technology

How Electrostatic Technology Works

Electrostatic sprayers work by charging liquids (i.e. our proprietary cleaners, sanitizers, and disinfectants) as they pass through the sprayer nozzle.

Charged droplets are generated that repel one another and actively attack, stick to and wrap around, to

coat all sides of the surface. This results in a uniform coating of sanitizer or disinfectant on the sprayed objects, including hard-to-

reach areas that manual cleaning often misses. This technology also avoids “liquid pooling” that typically occurs with trigger sprayers.

Is Electrostatic Spray Disinfection Right For My Business?

Although electrostatic spray may sound like an aggressive method for regular commercial cleaning applications, the opposite is true. It’s simple and efficient for all environments, especially busy workplaces.

Benefits of electrostatic spray disinfection...

- Reduce the time it takes to safely sanitize and disinfect by 50%
- Improve infection control and reduce the spread
- Apply chemicals in a more efficient, controlled manner
- NO increases to your budget

Heavily Trafficked Areas or Objects?

Remove germs & bacteria, even in the crevices!

Get **“SAFE & SANITIZED”** cleaning help from professionals. We provide deep cleaning services, sanitation services, and disinfection services that fit your needs, and budget, including emergency support.
